

To The Kootenai County Commissioners:

Someone ought to realize that this is not a big city and look at the people from Post Falls or Spokane and what they really want. They don't care what happens here. All they want to do is come and make noise and then leave.

I have a good idea for all who think the no wake zone is a bad idea: live where you want to live and enjoy it but don't come to a small town and pollute the air with your noise.

How about I come to your back yard and yell and scream 12 hours a days, 7 days a week?

Chad Cadnum
