Subj: RE: Bayview wake zone

Dear Sirs;

It is with GREAT concern that I write this to you. I have been told that there is thought from your department on doing away with the NO wake zone in the public boat dock area of the bay here in Bayview. That my dear sirs would be a "HUGH", safety mistake. The pure pleasure of living and recreating that area is totally dependent on the safe quiet nature of the Bay "WITH" the NO wake zone there.

Swimmers, kayakers, canoeist, all small crafts and sail boats are all very active in the bay. The safety of these people is greatly due to the NO wake zone. The NO wake zone insures the safe use for everyone. The bay is heavily used already and will only become MORE congested with the increase of popularity that is happening here. At this time WITH the NO wake zone it has been quite safe. If the No wake zone is removed there will be a danger for all non motorized folks...and what for??? So that the GO FAST BOATERS can get out faster???? Not a good or wise trade off in any way shape or form.... The motorized boats need only take three to four minutes to be able to open up out in the open ...

PLEASE do NOT do away with the No wake zone...Let it be known that as a person living in the Bayview area and an active user of the lake I want to be counted as in favor of the NO wake zone STAYING in our bay.....Please do NOT remove it.....Any questions 208 683 2732.

Thank you,

Marcelle Richman
